## WHO WE ARE

We are a B Corp certified social enterprise enabling healthcare equality for all. As a social enterprise, we manage dental, vision, drug, and healthcare benefits programs exclusively for government and social services agencies in Canada. Our targeted experience and innovative technology provides cost savings, reliable service, process continuity, and accurate, insightful data that enables governments to make informed strategic decisions, reducing stress on the healthcare system through streamlined administration.

## ABOUT THIS OPPORTUNITY

Accerta is looking for a Power BI Developer / Database Administrator to create and expand on our reporting capabilities and develop statistical models for decision making. Additionally, this position is responsible of providing operational support for any database-related matters. This is a full-time temporary position for one (1) year.

## ACCOUNTABILITIES

- Translate business requirements into specifications that will be used to drive data store/data warehouse/ data mart design and configuration
- Data preparation, data gateway and data warehousing projects.
- Utilise Microsoft Business Intelligence Stack through Power BI, SSAS, SSRS, SSIS.
- Transition developed BI solutions to Business Stakeholders
- Provide support as required to ensure the availability and performance of enterprise data
- Power BI development and administration.
- Connect to data sources, import data and transform data for Business Intelligence.
- Building Analysis Services reporting models.
- Responsible for design methodology and project documentation.
- Develop visual reports, dashboards and KPI scorecards using Power BI desktop.
- Ensure proper configuration management and change controls are implemented for your sphere of influence
- Provide technical assistance and cross training to other team members
- Design and implement technology best practices, guidelines and repeatable processes
